This General Warranty (“Warranty”) is attached to specific Products (as defined below) manufactured by Fujitsu Client Computing Limited (“FCCL”) in the country you purchased such Products (the “Territory”). This Warranty describes or contains important information about the services and support to which you, the original Purchaser (“Purchaser”) are entitled.

This Warranty applies only to the Products purchased for your own use and not for resale and from Distributors in the Territory. Warranty coverage commences from the date of purchase of the Products.

This Warranty covers defects in material or workmanship in the Products provided that such defect occurred when the Product is properly used in a manner as instructed in the User’s Manual accompanied to Product but does not cover a defect as a result of any fault, mistake, wrongful or careless act or omission, misuse, abuse or damage of the Product by Purchaser during the applicable warranty period.

### **Terms Definitions**

“ASP” means Authorized Service Provider conducting repair and maintenance service for Products under this Warranty. For contact information of ASP, please see Appendix A hereto.

“Distributors” means distributors and resellers which FCCL directly or indirectly authorizes to distribute Products in the Territory;

“FCCL” means Fujitsu Client Computing Limited;

“Product(s)” means the personal computer products named UH-X manufactured by FCCL and its accessories originally packaged therewith;

“Purchaser” means you, the original purchaser of the Product holding a valid official sales receipt.

## **What is Included in this Warranty?**

This Warranty begins on the date of purchase of the Products which is stated on the proof of purchase (official sales receipt).

Repair service shall be conducted only in the Territory and should the Product need repair services outside of the Territory, this Warranty shall not apply.

## **What ASP Will Do to Correct Problems**

When you contact ASP, you must follow the problem determination and resolution procedures specified.

ASP will attempt to diagnose and resolve your problem over the telephone, e-mail or through remote assistance. ASP may direct you to download and install designated software updates.

If your problem cannot be resolved over the telephone or remotely or through your application of software, ASP will arrange for service under this Warranty.

If the Product becomes defective during the Warranty period, ASP will at its option repair the Product with new or reconditioned parts. The replaced part becomes the property of ASP (or other third parties) and the replacement part becomes your property. Only untampered or unaltered Products, including, without limitation to the parts embedded therein, are eligible for replacement. The replacement Product or part provided by ASP may not be new, but it will be in good working order and at least functionally equivalent to the original part. The replacement part shall be subject to warranty for only such period as it remains on the original Product.

To the maximum extent permitted by law, the Product shall be considered as repaired when it fulfills tests performed according to the original Product specifications and when the operating system has been restored. Service turnaround time depends on Product and/or the problem.

### **Responsibility of the Purchaser**

Before a Product is repaired under this Warranty, you agree to:

1. Remove the parts not originally embedded or combined in the Products, associated equipment and third-party peripherals, memory expansion card, PC cards or accessories not under this Warranty;
2. Ensure that the product or part embedded in Product is free of any legal obligations or restrictions that prevent its replacement;
3. Provide ASP with an authorization agreement (in a written format) as owner (or if you appoint a proxy, as well as written proxy form) to have ASP service a product or part;
4. Follow the Warranty request procedures that ASP specifies;

6. Keep safely the 2-level passwords (master password and user password of the hard disk lock). Loss of these 2-level passwords means the hard disk content cannot be retrieved by ASP and the warranty of the locked hard disk will be void. It is the responsibility of the Purchaser to ensure the safe keeping of these 2-level passwords and for the recovery of data from the locked hard disk.
7. Provide ASP with all system keys or passwords and sufficient, free, and safe access to Purchaser's facilities to perform service; and
